

## Attorney Commentaries

- I. **This Federal case was a complete win for my client:**  
“THANK YOU FOR YOUR HELP! **The court found you the more credible witness and that is what won the case in the end for us.** I am only the technician putting the vehicle together--**your report and testimony is what sold the court.** I went home--had a peaceful dinner, watched some television and fell asleep. I did take Thursday off and got a few chores done around the house to celebrate. Thank you once again and if you ever need any references please feel free to have anyone contact me.”
  
- II. **This case was ultimately dismissed:**  
“The City Attorney was expecting me to file a suppression motion on the radar. . . . . If I was able to show the officers were knuckleheads on the radar, I hoped it carried over on the breathalyzer. **So your report concerned the cops involved and the City Attorney, as they saw it as making them look less than professional.** That’s the way I read how the plea bargain resulted. Very seldom in this jurisdiction with either the state or the municipalities reduce a DUI. Probably less than 5% are reduced. **So I saw this as an incredible victory, and credit your comments and help as 95% of the result.** Thanks.”
  
- III. **Patent litigation:**  
“I was impressed with the job you did under circumstances that did not always provide us with the best facts. If given the opportunity, I will enthusiastically recommend you for another case.”
